

The all-new SG-120 has a gorgeous look with high-quality sounds - the accuracy and dynamics of the sounds, together with the natural response of the new graded hammer-action keyboard, provide the quality and feel of a grand piano. The luxurious finish makes the piano look as good as it sounds in any room decor.

SUPERB PIANO AND ORCHESTRAL SOUNDS

Designed for all types of musicians, this instrument offers a high-quality grand piano sound at power up while also incorporating a total of 385 sounds – 22 sounds available on the control panel plus 363 available in the internal memory – carefully selected to satisfy any requirements. The available voices feature a rich range of important sounds, including Acoustic and Electric pianos, Harpsichord, String Ensembles, Vocals, Organs and Guitar sounds, and more. All sounds can be layered to create your favorite sound combinations.

ONBOARD EFFECTS

There are three different types of built-in Digital Reverb that simulate different playing environments, from small rooms to theatres. There's also a Chorus effect.

RECORDING STUDIO

An easy-to-use SMF Multi-Track Recorder enables the player to make digital song recordings (up to 16-tracks). The recorded songs can be stored directly on a USB flash drive. You can also use a USB flash drive to play back commercially available Standard MIDI Files (SMF's).

SPECS:

Dimensions: 4 ft 8 in (W) x 2 ft 11 in (D) x 2 ft 4 in (H)
Weight: 165 lbs
